REPORT OF THE AUDITOR-GENERAL OF VICTORIA

SUPPLEMENTAL TO THE REPORT PRESENTED ON 14TH NOVEMBER, 1967, IN RELATION TO THE TREASURER'S STATEMENT OF THE FINANCES FOR THE YEAR ENDED 30TH JUNE, 1967.

As authorized by paragraph (b) of sub-section (1) of Section 47 of the Audit Act 1958, I present to the Legislative Assembly my Report on the accounts of certain of the statutory bodies which I am required by law to audit. With respect to the accounts of several of these public authorities, the figures furnished herein are subject to audit, but, generally, in such cases, sufficient progress has been made in the audits to establish that the figures published are substantially correct.

CANCER INSTITUTE.

The Cancer Institute is controlled by the Cancer Institute Board constituted in accordance with the provisions of the Cancer Act 1958. The figures shown hereunder are subject to completion of the audit.

Maintenance expenditure of the Institute is met substantially from moneys appropriated by Parliament under a Health Department vote. Payments from the vote for the year ended 30th June, 1967, amounted to \$1,830,000.

Expenditure from the Institute's revenue for the year is set out hereunder:—

COUNTRY FIRE AUTHORITY.

The annual audit of the accounts of this Authority has been completed by an officer acting under my direction. A continuous audit of the Authority's receipts and payments is carried out by a firm of chartered accountants. This audit and that conducted by my officer are, by arrangement, complementary in character.

Finance to enable the Authority to carry out its functions is provided, as to one-third, by the State through the Municipalities Assistance Fund and, as to two-thirds, rateably by Fire Insurance Companies in proportion to relevant risks underwritten.

To enable the determination of total contributions from these sources, the Authority is required to prepare annually an estimate of expenditure, which is subject to the approval of the Governor in Council. The estimate of total expenditure approved for the year ended 30th June, 1967, was \$2,520,918 from which was deducted \$17,340, the surplus of receipts over expenditure carried forward from the year ended 30th June, 1966, leaving net estimated expenditure of \$2,503,578. This was the amount received during the year from the contributors. Actual expenditure for the year exceeded the estimate of total expenditure by \$75,218, but miscellaneous receipts, \$90,449, including refunds, more than offset the excess, leaving a surplus of \$15,231 to be carried forward to the next year.

A statement of sums received as revenue, and their application, over the past three years, is as follows:—

DANDENONG VALLEY AUTHORITY.

This Authority was constituted pursuant to the provisions of the Dandenong Valley Authority Act 1963. Functions of the Authority include the drainage of the waters of the Dandenong Creek and its tributaries, the improvement of lands within the catchment thereof and the prevention of flooding and pollution.

By Order in Council pursuant to the provisions of the Act, the works of the Carrum Drainage District were transferred, as from 1st July, 1966, from the control of the State Rivers and Water Supply Commission to the Authority. The loan liability to the Treasurer of Victoria transferred to the Authority was \$536,520.

With the approval of the Governor in Council, the Authority has adopted as its balancing date the 30th September in each year. The accounts have been audited to 30th September, 1966.

Capital expenditure during the year amounted to \$673,496 and was financed, mainly, from the proceeds of loans raised by the Authority.

Following is an abridged statement of the General Revenue Account for the year ended 30th September, 1966:—

ELECTRICITY COMMISSION.

The net income of the State Electricity Commission for the year ended 30th June, 1967, as shown in its Revenue Account, was \$5,811,323 compared with \$3,694,469 in 1965-66.

Factors which affected the year's result included—

- (i) an increase of \$11,823,646 from sales of electricity;
- (ii) an increase of \$2,277,079 in the annual depreciation charge because of additional assets brought into service. The total depreciation charges again included an amount of \$3,000,000 as a further special provision for accelerated depreciation of peak load steam power stations;
- (iii) a special provision of \$4,000,000 by way of additional depreciation of the briquette factories at Morwell and Yallourn compared with \$5,000,000 in the previous financial year;
- (iv) an increase of \$2,689,149 in net interest charges;
- (v) additional costs of salaries, wages and associated charges, and increases in costs of materials and other expenses; and
- (vi) a further partial write-off of unamortized loan flotation expenses, \$250,000.

By decision of the Commission, the net income of \$5,811,323 was appropriated to—

In 1966-67, in accordance with the *Public Authorities* (Contributions) Act 1966, a contribution of \$4,800,000 was transferred to Consolidated Revenue. The contribution was calculated at 3 per cent. of \$160,000,000, which was the amount agreed on by the Treasurer and the Commission, as provided in the Act, as being the total revenue of the Commission in the preceding financial year. The contribution was charged by the Commission to the Contingency and General Reserve.

Revenue of \$168,131,465 from sales of electricity during the year 1966-67 was an improvement of \$11,823,646 or 7.6 per cent. on sales revenue for the year 1965-66.

Operating charges in 1966-67 increased by \$9,990,200 or 6.9 per cent. over the figure for the previous financial year compared with an increase of 10.07 per cent. in 1965-66 over 1964-65.

Significant matters, other than mentioned previously, affecting the operating result of electricity supply included—

- (i) an increase of 34,691 consumers in the year;
- (ii) an improvement in the rate of sales growth. In 1966-67, the growth was 7.5 per cent. as compared with 4.9 per cent. in 1965-66; and
- (iii) a decline in the cost per kWh sold, from 1.724 cents in 1965-66 to 1.683 cents in 1966-67, the increase in cost per kWh from peak load thermal stations being more than offset by lower costs per kWh in respect of output from the Latrobe Valley and from hydro power stations.

The following comparative figures show annual totals of electricity sent out from power stations and purchased and total sales, and also indicate line losses incurred in the course of transmission and distribution:—

Brown Coal Production and Distribution.—Coal won for the year amounted to 21,983,000 tons, an increase of 916,000 tons over the previous year's production.

The summary which follows presents in comparative form the annual output obtained from the various open cuts for the past two years and, in parentheses, shows, in respect of each year, the production costs per ton.

The operational results for 1966-67 are not wholly comparable with those under 1965-66. The comparison is affected by the charging of the full cost (\$288,559) of overburden removal in 1966-67 when sufficient was removed for two years' coal winning. The income increase is attributable to a price increase to the main purchaser.

Briquetting.—(Loss \$2,239,233). Trading results for the past three years, excluding costs charged on internal transfers to works, are shown in the following statement:—

The statement shows that income increased in 1966-67 compared with 1965-66. Quantity sales increased by 32,833 tons. The average industrial price was slightly lower, but the price to the Gas and Fuel Corporation rose. Increased expenditure resulted mainly from higher salaries and wages, higher freight and lower consumption of briquettes in power stations.

Reference has been made in previous Reports to the Commission's decision to make a special depreciation provision of \$12,000,000 before 1969-70 in respect of the Morwell and Yallourn briquette factories. A special provision of \$4,000,000 shown as a separate item in the Revenue Account for 1966-67 followed similar provisions in 1964-65 and 1965-66 of \$2,000,000 and \$5,000,000 respectively. The costs as shown in the preceding statement do not include these special provisions, but, as the allocation of interest charges is based on the depreciated value of assets, the \$7,000,000 additional depreciation provision to 30th June, 1966, resulted in a lower charge for interest in 1966-67.

The increase in revenue of \$33,302 was more than offset by the increase in expenditure of \$52,608. The figures also disclose that the loss per passenger carried has risen steadily to 12.25c in 1966-67, the causes, as stated in the last Report, being declining traffic and increasing costs.

Accumulated losses on operations, including those of the Geelong system which was discontinued in March, 1956, amounted, at 30th June, 1967, to \$8,249,924 with an addition of \$351,526 on account of capital written off.

The expenditure of \$99,223,088 was offset by retirements and adjustments in the year amounting to \$9,059,149, making the net increase in assets \$90,163,939.

Investments.—During the year, the Commission's investments, excluding deposits held on account of contractors, increased by \$118,792.

Investments held at 30th June, 1966 and 1967, were as follows:—

The amount of \$45,080,896 shown above represents investment of provisions and reserves, unexpended "Self Help" contributions and funds not immediately required at the close of the year to meet revenue or capital expenditure.

Consumers' and Other Advances for Construction.—The Commission's liability on account of these advances increased during the year to \$79,131,025—a net increase of \$8,651,876. Details are:—

The loan liability at 30th June, 1967, as shown above, does not include \$4,500,000 advanced by the Treasury in June, 1967. This sum was not received by the Commission until July, 1967. 10556/67.—2

Including settlements of \$1,303,715 on account of loans authorized in 1965-66, loan moneys raised by the Commission during the year amounted to \$63,039,405. The sources of those moneys were—

Public Loans	 	 	 	 28,010,725
Private Loans	 	 	 	 33,711,950
Area Loans	 	 	 	 357,680
Retired Staff Loans	 	 	 	 959,050
				63,039,405

The difference of \$33,622,522 between the total raisings of \$63,039,405, detailed immediately above, and the net increase of \$29,416,883 in Commission loans, shown in the preceding summary, represents the total of conversions and redemptions of maturing loans and payments in reduction of current loans.

The loan liability of \$208,601,542 to the Treasury was determined after the deduction of \$22,643,984, the Commission's equity in the National Debt Sinking Fund. The increase in this equity during 1966–67 was \$1,758,391, in respect of which a credit of \$259,715 was made to the Contingency and General Reserve representing, mainly, the relevant Commonwealth contributions to the Fund less National Debt charges in connexion with the repurchase of securities.

In respect of the Commission's liability under the heading of "Loans of Acquired Undertakings", the decrease of \$251,537 was the total of recoups by the Commission of redemption payments made by municipalities.

Contingency and General Reserve.—The decrease of \$4,540,285 in the bala Reserve is explained as follows:—	nce of this

DIRECTORS' EXPLANATORY NOTES ON THE ACCOUNTS FOR THE YEAR ENDED 30th JUNE, 1967.

- 1. Preference Shares.—The Articles of Association of the Corporation restrict the transfer of preference shares to any person other than the State of Victoria, except in special circumstances.
- 2. Provision for Long Service Leave.—The provision is considered to be more than adequate to meet all current entitlements to long service leave payments. The provision, however, is insufficient to meet total long service leave commitments which are being funded progressively by annual charges against revenue.
- 3. Fixed Assets.—(a) In converting to a Natural Gas supply, other uses may not be found for plant of substantial In this event, it is probable that the amount involved may be written out over a number of years.
- (b) The Corporation had entered into a contract at 30th June, 1967, for the sale of its property at 469 St. Kilda-road, at a satisfactory price. The transaction, which was completed after balance date, is not reflected in the accompanying financial statements.
- 4. Provision for Depreciation.—The provision for depreciation includes annual charges to the Profit and Loss Account and transfers of profits or losses on disposal of assets, including land. In this year a special provision of \$279,490 (1966, \$418,596) was charged to Profit and Loss in addition to depreciation at rates generally provided by the Corporation. The cost of plant in course of retirement 1967, \$66,852, (1966, \$30,406) is deducted in the accounts from the provision for depreciation.
- 5. Provision for Retiring Allowances.—Retiring allowances are payable to certain employees who are not contributors to the Superannuation Fund. Such allowances are in relation to past service and are granted at the discretion of the Directors. The provision at 30th June, 1967, \$663,794, includes appropriations totalling \$600,000 in addition to the estimated amount which may be granted to employees who became eligible for consideration at that date.
- 6. Provision for Deferred Repairs.—The provision of \$225,950 shown in the Balance-sheet under the above heading includes \$142,057 unused from the provision made at 30th June, 1966.

As indicated, the preceding explanatory notes have been appended to the Corporation's balance-sheet by the Board of Directors and are to be read in conjunction with the relevant figures in the certified statements of account.

Particulars of Corporation shares acquired by the State and advances for works made by the State are furnished hereunder. The net cost to Consolidated Revenue on account of the State's financial interest in the Corporation is also shown.

Explanations of the variations, as between the two years, in the Trust's internal funds are furnished below:—

Endowments.—The addition of \$22,292 was due to the receipt of this amount from the British Phosphate Commissioners in respect of costs involved in providing a water service at Kings Wharf.

General Reserve.—The increase of \$77,075 in this Reserve resulted from surpluses arising out of sales of land and fixed assets, unexpended amounts received on account of wharf repairs, and transfers from the Superannuation Fund of the Trust's contributions, together with interest thereon, in respect of officers who resigned during the year.

Specific Reserves and Funds.—Following a resolution of the Commissioners on 15th December, 1966, the Port Development Fund was established by a transfer of \$1,007,492 from accumulated net revenue. The purpose of the Fund is to provide money to finance a large scale channel deepening program.

Transactions within the respective Reserves and Funds under this heading during 1966 are given—

GRAIN ELEVATORS BOARD.

The current financial agreement between the Grain Elevators Board and the Australian Wheat Board, which covers the period 1st November, 1964, to 31st October, 1969, broadly states that the Grain Elevators Board will be paid for the use of its storage facilities a remuneration based on—

- (a) a Capital Facilities Allowance of $7\frac{1}{2}$ per cent. on structures and $12\frac{1}{2}$ per cent. on Plant and Equipment, and
- (b) reimbursement of Operating Costs.

A clause in the agreement requires other bulk handling authorities utilizing Grain Elevators Board facilities to share the cost of the remuneration payable by the Australian Wheat Board. Under the provisions of Act No. 7092, the Grain Elevators Board was authorized to handle bulk barley. The Australian Barley Board has utilized Grain Elevators Board facilities and consequently there is a supplementary agreement with that Board. The terms of each agreement require an audit certificate to support the apportionment of the remuneration receivable by the Grain Elevators Board in relation to each year's operations.

Wheat receivals for the 1965-66 season totalled 61,369,305 bushels while 1,337,164 bushels of barley were handled.

The statement of revenue and expenditure given below shows a net revenue for the 1965-66 accounting period of \$302,195.

HOME FINANCE TRUST.

The Home Finance Act 1962 empowers the Home Finance Trust to raise money from lending institutions by way of deposit or bank overdraft for the purpose of making housing loans on the security of both first and second mortgage. In terms of the Act, the Treasurer may, with the approval of the Governor in Council, execute guarantees in favour of the Commissioners of the State Savings Bank of Victoria or any person or body agreeing to deposit money with the Trust or in favour of any bank providing accommodation by way of overdraft.

The amount so agreed to be deposited or lent at 30th June, 1967, was \$22,300,000 compared with \$20,000,000 at 30th June, 1966. Of the amount of \$22,300,000, a sum of \$1,500,000 has been deposited or lent for the purpose of loans by the Trust on the security of second mortgage. Details are:—

Loans approved by the Trust to borrowers amounted to \$25,720,646 of which sum \$1,936,660 related to second mortgages. Advances secured by first mortgage at 30th June, 1967, amounted to \$17,073,861 (net), and, by second mortgage, to \$1,172,924 (net).

Operations for the year resulted in surpluses of \$35,439 on account of first mortgages (Home Finance Fund No. 1) and \$787 on account of second mortgages (Home Finance Fund No. 2).

Set out hereunder are particulars of the Trust's assets and liabilities as at 30th June, 1966, and 1967. The figures as at 30th June, 1967, are subject to audit.

HOSPITALS SUPERANNUATION BOARD.

This Board was constituted under the provisions of the Hospitals Superannuation Act 1965, No. 7354. It is responsible for the administration of the Hospitals Superannuation Fund established under the same Act for the purpose of providing, on a contributory basis, a scheme of superannuation for employees of participating hospitals and other institutions.

In addition to allowing for future admissions to the scheme, the Act provided for the transfer of the various institutions participating in a scheme of superannuation administered by the Victorian Hospitals' Association to the scheme to be administered by the Board, and, accordingly, as at 1st July, 1966, the day fixed as the "Fund Opening Day", the assets of the former scheme were transferred to the Hospitals Superannuation Fund.

Broadly, the membership of the Fund comprises employees of participating institutions who—

- (a) are accepted by the Board as members on their own application;
- (b) became members by virtue of the transfer from the former scheme to the scheme administered by the Board and on whose lives policies of life insurance were held by the trustees of the former scheme and who were under a specified age on the 1st July, 1966;
- (c) became members upon the above transfer and on whose lives policies of life insurance were held by the trustees of the former scheme, but were over a specified age on the 1st July, 1966; and
- (d) became members upon the above transfer and who had an interest in the common investment fund of the former scheme.

Employees becoming members as detailed in paragraphs (a) and (b) above are eligible, pursuant to the Act and Regulations thereunder, to participate in a "Deposit Administration Scheme" administered by the Board, and, in respect of members under paragraph (b), notional values, in place of life policies, assessed by the A.M.P. Society, were credited to the respective members' accounts as at 1st July, 1966.

In respect of members classified under paragraph (c), life insurance policies effected in their name remain in force and contributions received by the Board from these members and their employer institutions are paid to the A.M.P. Society as policy premiums.

The "Provident Account" within the Fund represents the interest of those employees who became members as outlined under paragraph (d) above.

Contributions are made equally by members and their employer institutions but members may, in addition, by making supplementary contributions without institutional reciprocation, become entitled to increased benefits.

Benefits, primarily lump sum payments, are paid in accordance with Schedules contained in the Regulations under the Act. Provision is also made for the payment on retirement, death or retrenchment, of a "Terminal Benefit Subsidy". In respect of employee members of participating institutions which have been classified as "Class A" in terms of the Act, the cost of this subsidy is borne by funds provided from the Hospitals and Charities Fund. To meet claims by employee members of other participating institutions (Class B), each such institution is levied a percentage over and above the matching contribution normally paid by it.

Provision is made in the Act and Regulations for specific accounts to be kept in relation to the Fund and for a distribution, at least at the end of each fund year, of the earnings and charges (as determined by the Board) of the Fund.

The Welfare Account within the Fund enables the Board to make payments for the relief of distress and hardship to contributors, former contributors and their dependants and was created, pursuant to the Act, by the transfer, as at 1st July, 1966, of assets standing to the credit of a similar account maintained within the former scheme. In terms of the Act and Regulations, the income of the Account is derived from any moneys standing to the credit of the Management Account and considered by the Board to be surplus for the purpose of that Account and, as determined by the Board, a share in the distribution of certain earnings of the Fund.

Management costs of the Board are met from the Management Account, the income of which is derived from commissions received in connexion with policies of life insurance held by the Board, a percentage (6 per cent. in 1966–67) of moneys paid by members and participating institutions as contributions, grants from the Hospitals and Charities Fund in relation to establishment charges, moneys standing to the credit of the Welfare Account and considered by the Board to be surplus for the purposes of that Account and, as determined by the Board, a share in the distribution of certain earnings of the Fund.

The annual audit of the Fund is conducted by my officers pursuant to the provisions of the Act. A continuous audit is carried out by a firm of chartered accountants appointed for that purpose by the Board. The audits are, by arrangement, complementary in character.

At the time of preparation of this Report, neither audit could be completed pending the finalization of the Board's accounts. As several matters are still to be determined, it is deemed advisable not to include any statements of accounts in this Report.

HOUSING COMMISSION.

The Commission is responsible for the improvement of housing conditions including the erection of suitable houses for letting or selling to eligible persons.

For the purposes outlined above, the State has made loan allocations to the Commission and the Commission, itself, has raised loan moneys by the issue of debentures. However, the major funds which have been allocated to the Commission for housing projects have been those which, since 1945–46, have been advanced by the Commonwealth in terms of a series of Commonwealth–State Housing Agreements. Also, many municipalities have, in various forms, assisted the Commission with cash contributions, rate refunds and gifts of land for housing projects of a special nature.

A summary of the Commission's revenue and expenditure for 1965-66 and 1966-67 is furnished below:—

The increase of \$1,566,388 in gross rental charges was due to additional units becoming available for tenancy and also was the reflection of a full year's operation of revised rentals on the re-letting of vacated premises and of certain increases in rentals which took effect as from 30th January and 10th April, 1966.

The surplus shown in the above statement is the gross profit recorded in the Commission's House Trading Account. In addition to this profit, there was a surplus of \$189,847 from the sale during the year of 172 repossessed units.

Generally, sales have been made on the basis of estimated costs. The dwellings sold, 1,873, included a number of vacated rental units. In respect of these particular units, expenditure amounting to \$99,888 was incurred by the Commission on accrued maintenance and repairs just prior to and in anticipation of sale. The selling price of each unit included an estimate of the amount needed to be expended on it in this way, but no deduction was made on account of any financial provision for maintenance accumulated over the period of tenancy.

The figures in the General Revenue Account relating to house sales are brought together below to show the net credit to revenue from this source:—

The Commission has again provided from its profits in respect of house sales an amount of \$300,000 to supplement other funds available for slum reclamation works. The total so provided for this purpose now amounts to \$900,000.

Residential Land Sales.— Reference was made in last year's Report to a change of policy adopted by the Commission in relation to the accounting for profits arising out of the sale of land for residential purposes. In accordance with the new policy, operative from 1st July, 1965, profits from sales of residential land are credited to revenue, whereas profits on sales of land for purposes other than residential are treated as capital profits and credited to a Land Realization Reserve Account. The matter is still receiving consideration.

Realized profit on sales of land for residential purposes for the year amounted to \$70,104 compared with \$11,038 for 1965-66.

The financial position of the Commission as at 30th June, 1966 and 1967, is summarized hereunder:—

House Purchase Debtors, \$159,653,564.—This item is a net figure, the sum of the amounts received from intending purchasers, \$169,318, having been, for balance-sheet purposes, set off against the gross sum due from existing purchasers.

Concrete House Project.—The amounts \$821,789, as at the 30th June, 1966, and \$695,385, as at the 30th June, 1967, against this item are, in effect, the notional liabilities, as at the respective dates, of the Concrete House Project to the Commission. The decrease from \$821,789 to \$695,385 is explained as follows:—

	•	3
Liability of Concrete House Project to Commission on account of advances for improvements and for working capital as at 30th June, 1966		821,789

		247,728
Item—" Concrete House Project" as at 30th June, 1967	••	695,385

The Project is charged notional interest at the rate of 4 per cent. per annum on the book value of its land, buildings and road services, &c. In the summary of the Commission's Revenue Account for 1966-67 furnished in this Report, the credit for this interest is included in the item "Interest—Sundry" and the charge therefor is reflected in the costs of the prefabricated units constructed at the Project.

Shares—31 Melrose-street Pty. Ltd., \$400.—The Commission is a shareholder to the extent of 200 shares in this service company formed to operate in respect of buildings consisting of eleven shops and six flats at Melrose-street, North Melbourne. These buildings were constructed by the Commission on land originally owned by it and several have been sold in units on a stratum title basis.

Electronic Data Processing—Planning Costs, \$175,737.—The installation of an electronic data processing system during the financial year 1964–65 enabled the Commission to transfer the house purchasers' accounts and the tenants' accounts to a new system. The development costs of this system, which were capitalized, amounted to \$216,914.

During 1966-67 a further \$15,466 was capitalized, being the planning costs of extending the computer system to the Concrete Housing Project and Store at Holmesglen.

Of these amounts, a sum of \$56,643 has been written off leaving a balance of \$175,737 to be written off in future years.

Other costs associated with the installations aggregated \$208,674 and are included in the balance-sheet item "Plant, vehicles, office furniture and equipment". This sum includes the cost of the I.C.T. 1500 computer, which the Commission had been using on a hire basis since 1964-65 and which was purchased during 1966-67 for \$122,500, the expenditure on furniture, fittings, equipment and the provision of suitable accommodation less depreciation.

Items Capitalized.—Expenditure on administration, rates and interest deemed to be applicable to or incurred during construction has been capitalized. The amounts capitalized and the proportions thereof to the totals of the respective items for 1965-66 and 1966-67 are:—

						1965–66,		1966-67.	
						\$	%	\$	%
Rates				• •		195,802	8 · 7	201,246	8.2

						1,770,459		1,867,277	

"Rates" are based on actual figures. "Administration" is determined primarily on the basis of an estimated allocation of salaries. Regard has also been had to administrative items which are clearly ascertainable as direct charges to either capital or revenue.

Bank Overdraft.—This overdraft was in existence only for a few days over the balancing period. However, no statutory authority exists for the Commission to obtain temporary loans of this nature.

Loan Liability.—During the year, an additional \$23,353,761 was made available to the Commission under the terms of the 1961 Commonwealth and State Housing Agreement. Total loans from all sources at the close of the year amounted to \$399,898,084. At 30th June, 1967, the liability in respect of loans was \$359,698,129. Details are:—

The Commission is required to meet the debt charges on the liability to the Government of Victoria for housing. Debt charges on the amount advanced for slum reclamation are being met from the general revenues of the State.

Provision for Maintenance.—As at 30th June, 1966, the balance of the Accruing Maintenance Provision Account was \$3,360,968. To this amount there was added in 1966–67 the sum of \$2,506,863 by way of normal provision from Revenue Account for maintenance. The total expenditure on maintenance charged to the Account in 1966–67 was \$2,135,257 leaving a balance at credit of the Account at the close of the year of \$3,732,574.

The estimate of accruing maintenance is based on the Maintenance Architect's assessments as applied to classified types of Commission houses.

House Sales Reserve Suspense Account.—The primary purpose of this account is to represent at date the profit still to be realized on houses sold on terms. The transactions for the year are summarized below:—

House Purchasers' Death Benefit Fund.—House purchasers, unless disqualified by age, may be admitted to participation in the House Purchasers' Death Benefit Scheme, for the purpose of which an appropriation is made from interest receivable under contracts for the sale of houses on terms. Operations during the year and the position of the Fund as at 30th June, 1967, are summarized below:—

		\$	\$
Balance as at 30th June, 1966	••	477,269 260,544 15,425	4,531,678

Deduct Payments on Account of Deceased Purchasers			5,284,916 37,513
Balance as at 30th June, 1967			5,247,403

The sum of the investments of the Fund, \$5,184,007 includes an amount of \$1,913,840 set aside in an account in the Commission's books styled "Loan Advance—Death Benefit Fund." The Fund's investments are included in the Commission's balance-sheet item—"Investments \$5,606,763".

In respect of the advance of \$1,913,840 it is pointed out that there is a contra of a like amount in the Commission's balance-sheet under the item "Loans". In consideration of this advance, the Fund is being credited with interest from the Commission's ordinary revenues at rates comparable with those which would have been obtained if the sum had been invested outside the Commission's undertaking. The Commission's action in this regard would appear to imply that the amount of the advance is, in fact, an investment of the Fund but, as yet, the Commission has not obtained Treasurer's approval as required by Section 89 of the Housing Act. The Actuary appointed pursuant to the provisions of Section 109 (3) of the Housing Act 1958 to investigate the state and sufficiency of the Fund as at 30th June, 1964, reported that the fund had matured to a position of strength.

Realization Reserves—Land, \$5,922,845; Shops, \$224,010—During the year there was an increase of \$304,719 in the Land Realization Reserve. Of this amount, \$227,342 was the resultant net profit from sales of land for other than residential purposes to industries and retailers, less the net loss on sales of land to municipalities for reserves, church institutions and to the Education Department for school sites.

The balance \$77,377 was the unrealized profit on sales on terms of land for residential purposes.

There were no shops sold in the various estates in 1966-67.

Interest Receivable Reserve—House Purchasers, \$7,439,644.—The stated purpose of the Reserve is to provide, on account of each sale on terms, for the payment of interest on the relevant proportion of the Commission's loan liability over the period commencing immediately after the date of final payment by the purchaser concerned, in terms of his Contract of Sale, and ending at the date of redemption of the outstanding proportion of the Commission's loan from the Commonwealth or State in respect of the unit involved.

The balance at credit of the Reserve was increased from \$6,440,005 at the beginning of the year to \$7,439,644 at the close of the year by transfer from revenue of \$999,639.

Depreciation.—No provision has been made out of revenue for depreciation of houses. The expenditure from revenue on account of debt redemption has so far been regarded by the Commission as a reasonable substitute for depreciation, as it provides for amortization over a period of 53 years.

Accumulated Surplus, \$1,313,420.—The variations in this account during the year are explained below:—

LATROBE VALLEY WATER AND SEWERAGE BOARD.

Functions of the Latrobe Valley Water and Sewerage Board include the maintenance of adequate supplies of water and the disposal of industrial and domestic waste.

Expenditure on capital works has been met mainly from the State's Loan Fund. Advances from the Treasury in 1966-67 amounted to \$181,358 (Water \$83,921, Sewerage \$97,437). Other advances by the State amounting to \$318,641 (Water \$138,258, Sewerage \$180,383) were made to the Board during the year for the purpose of design, construction and operation of water and sewerage works in the Churchill township. Total advances to the Board to 30th June, 1967, amounted to \$18,770,586 (Water \$12,047,192, Sewerage \$6,723,394).

The accounts of the Board to 30th June, 1967, have been audited. For purposes of comparison, figures for the previous year are given in the abridged statements which follow.

LOCAL AUTHORITIES SUPERANNUATION BOARD.

The Board operates under the provisions of the Local Authorities Superannuation Act 1958 and is responsible for the administration of three separate schemes to provide retiring allowances for permanent employees of local governing bodies. The salient features of these schemes are given below:—

Insurance.—Under this scheme an employee was required to effect, with an approved company, a policy of endowment insurance, the amount of the policy being that obtainable for an annual premium equivalent to 7 per cent. of the salary of the employee. No new policies are being written under this scheme as, substantially, it has been superseded by the Benefit Contracts Scheme.

Provident Fund.—The purpose of the Fund is to provide a lump sum, payable to or in respect of any employee upon his withdrawal, retirement or prior death where he is ineligible, in whole or in part, to contribute to either the Insurance or the Benefit Contracts schemes. The annual contribution payable in respect of any such employee is 7 per cent. of so much of his salary as is subject to the Provident Fund scheme.

Benefit Contracts.—Under the authority of the Local Authorities Superannuation (Amendment) Act 1960, the Board was empowered to enter into contracts with eligible persons to provide benefits by way of superannuation, annuities, retiring allowances or payments on death. The scheme came into operation as at 1st March, 1961, and to date, benefits provided have been by way of lump sum payment upon withdrawal, retirement or death. Except where an agreement has been made between an employee and an authority for a rate in excess of 7 per cent., the annual premium payable in respect of each permanent employee is 7 per cent. of his salary. Benefits are paid in accordance with tables contained in Regulations under the Act.

Premiums and contributions are payable annually in advance by the employing Authority, which is then entitled to recover from each employee, by instalments over the ensuing year, one-half of the amount paid on the employee's behalf or such lesser proportion as is mutually agreed.

Administrative costs of the Board are met from the Management Account, the income of which is derived from interest received from the investment of funds at credit of the account, and allocations from the Benefit Contracts Account and the Provident Fund.

The accounts for the year ended 28th February, 1967, are compared hereunder with those for the previous year.

As the above statement shows, operations during 1966-67 resulted in a deficit of \$608,559 which was met by an allocation of an equivalent amount from the Rates Equalization Reserve.

The following summary shows the variations in the valuations of properties rateable to the Board and the annual collectable revenue over the past three years:—

	Financial Year.		Revenue from Water Rates and Charges.	Revenue from Metropolitan General Rate and Other Charges.	Revenue from Drainage and Rivers Rate and Other Charges.	Assessment Valuations (Net Annual Values).	
				\$	\$	\$	\$

The aggregate of net annual values on which the rates were assessed continued to rise as a result of supplementary valuations.

The rates levied in each of the years shown in the above summary, and the statutory maximum rates allowable as from 12th August, 1959, were:—

Interest charges continued to be a heavy burden on the Board's revenue, the proportion of interest and exchange to gross revenue from rates and charges being 56.48 per cent. compared with 55.86 per cent. in the previous year. The actual charge to revenue on account of interest and exchange rose from \$16,526,218 in 1965-66 to \$17,834,761 in 1966-67.

Interest charged included amounts credited to the Board's several funds as follows—Renewals Fund \$390,338; Sinking Fund \$1,438,300; and Superannuation Fund \$222,658. Exchange on interest remitted overseas amounted to \$65,089.

The main credits during the year to Special Funds and the balances of those Funds at 30th June, 1967, are shown hereunder:—

				Interest Credited.	Total Revenue Additions to Fund.	Credit Balance at 30th, June, 1967.

			3,847,288	2,051,296	5,898,584	61,539,737

In addition to the Funds listed above, there are other Provisions and Reserves with credit balances to the sum of \$49,199,712 as at 30th June, 1967. Thus, the sum of the Board's Funds and Reserves as at that date was \$110,739,449. Of this sum, \$58,325,998 was invested, \$6,058,113 was applied to loan redemption and \$46,355,338 was utilized in the Board's undertaking.

Town Planning, Metropolitan Highways, &c.—The Metropolitan Improvement Rate remained unchanged at 1.25c per dollar and was assessed on properties with an aggregate net annual value of \$379,174,633 compared with \$362,104,998 in 1965-66.

MELBOURNE AND METROPOLITAN TRAMWAYS BOARD.

The annual audit of the accounts to 30th June, 1967, conducted by my officers pursuant to the provisions of the *Melbourne and Metropolitan Tramways Act* 1958 has been completed and the continuous audit of the accounts, also provided for in the Act, has been carried out for the Board by a chartered accountant. The audits are, by arrangement, complementary in character.

The Board's statements of operations for the past two years disclose the following results:—

The results for the two years were arrived at after making provision for depreciation and amortization and, in addition, provisions as shown hereunder. The provisions for long service leave, retiring gratuities, accrued sick leave and public liability claims equalled the amounts expended for those purposes during the year.

As a result of the writing back of the Specific Provisions for Fire Damage, Accrued Sick Leave, &c., no provision now exists in the Board's accounts for such contingencies. The writing back of these Provisions against the Accumulated Deficit has reduced the Accumulated Deficit as at 30th June, 1967, compared with the 30th June, 1966, figure. However, the large deficits which have occurred regularly in recent years have reduced the Board's equity, calculated on Balance-sheet figures, in the undertaking, so that for some years its liabilities have exceeded its assets.

The provision for depreciation and amortization is regarded as covering not only those two particular items but also the Board's sinking fund commitments. Supplementary records are kept by the Board to substantiate the Sinking Fund component of such provision. Details are:—

In the years 1965 and 1966, the Commissioners appropriated \$800,000 and \$900,000 respectively to a general reserve. Attention has been drawn to the need to clarify the legal power of the Trust to make these appropriations, and amending legislation relating to reserves and reserve funds is under consideration.

The following statement, based on the balance-sheet, analyses the sources of funds available to the Trust up to 31st December, 1966, and the application thereof, and includes comparative figures at the end of the previous year:—

PORTLAND HARBOR TRUST.

Pursuant to the provisions of the *Portland Harbor Trust Act* 1958 the exclusive management and control of the Port of Portland are vested in the Commissioners of the Trust.

The Commissioners' statutory charter provides authority, also, for the erection and operation of a grain terminal at Portland. The erection of the terminal was completed during the year at a total cost of \$1,378,167. Further approvals were granted for the extension of receival facilities and expenditure on these extensions to 30th June totalled \$37,480. Operations for the year resulted in a surplus of \$46,131.

The statement of revenue and expenditure and the abridged balance-sheet herein summarize the financial results of the whole of the operations of the Trust. After taking into consideration a State contribution of \$615,000 and the provisions for sinking fund and accruing long service leave, there was a surplus of \$46,134 on the year's operations. This compares with a deficit of \$73,774 in 1965-66.

Particulars of revenue and expenditure for the past two years are:

Loan interest shown in the above statement relates only to the interest payable in respect of inscribed stock and debentures issued by the Trust. Section 30 of the *Portland Harbor Trust Act* 1958 requires the Trust to meet interest charges and National Debt Sinking Fund contributions in respect of advances which have been made by the Treasurer, but so far the Treasurer has approved of payment of these amounts being deferred. At 30th June, the amounts so deferred were interest, \$1,849,509, and National Debt Sinking Fund contributions, \$94,828.

^{*} Includes investments on account of Sinking Fund.

Loan Funds at 30th June, 1967, comprised advances from the Treasurer, \$4,082,900 (including \$24,900 discount and expenses on loans) and \$13,938,906 raised by the Trust by the issue of Inscribed Stock and Debentures.

Deferred Liabilities do not include interest accrued on advances from the Treasurer. At 30th June, the amount involved was \$1,849,509.

The Endowment Fund, which is chiefly represented by the property initially vested in the Trust, is being reduced over the period of construction parallel with the writing down of certain vested property. This item is being written down progressively as the components, piers, wharves, &c., are absorbed into new works or dismantled during the course of construction of the harbor.

Stores consist of conventional goods to a value of \$54,434, and subsidiary stores, \$40,405. Conventional stores are checked selectively by the audit and are supported by a certificate of the Chief Storekeeper. Subsidiary stores consist of the stockpiles of rock and aggregate and are supported by a certificate of the Engineer.

Investments, \$1,494,654, include funds not immediately required by the Trust and lodged with the Trust's bankers either for a fixed period or at call and specific investments on account of funds and provisions.

Moneys equivalent to the amount of the Sinking Fund are invested in suitable securities.

PUBLIC TRUSTEE.

The powers and duties of the Public Trustee are prescribed by the *Public Trustee Act* 1958. Funds of the estates administered by him are outside the ambit of the Public Account, all receipts being paid into a "Common Fund" under his direct control as authorized by the Act. The comparative statement below shows the composition of the Common Fund at the close of each of the past three years.

In addition to funds held in the Common Fund, the Public Trustee controls investments and property with a recorded value of \$26,955,955 at 30th June, 1967.

The Act requires that interest received from the investment of moneys forming part of the Common Fund shall be paid into an Interest Suspense Account. From this Account, there is payable in each year:—

- (i) to the credit of the respective estates represented in the Common Fund, interest at rates determined from time to time by the Public Trustee; and
- (ii) such amount as the Public Trustee deems necessary for credit to the Estates Guarantee and Reserve Account for the purpose of meeting certain contingencies including losses which might arise on the sale of investments of the Common Fund.

At the end of the financial year, the remainder at credit to the Interest Suspense Account is payable to Consolidated Revenue towards administrative costs.

Operations through the Suspense and Reserve Accounts for the financial years 1965-66 and 1966-67 were :—

In 1966-67, as in the previous financial year, no allocation was made to the Estates Guarantee and Reserve Account from the Interest Suspense Account. It is understood that the Public Trustee did not deem it necessary to make any such allocation for the reason that the Estates Guarantee and Reserve Account is, on present indications, adequate to meet anticipated losses on the realization of investments and to meet any other costs chargeable to the Account.

Moneys standing to the credit of the Reserve Account are invested as part of the Common Fund and the Account is credited with a share of the earnings of the Fund.

Receipts from the management of estates by way of fees and commission, as well as the interest contribution already mentioned, are paid into Consolidated Revenue from which operating expenses are met. On this basis, the net result of operations for the year was a surplus of \$154,865 compared with a surplus of \$111,539 in the preceding year. Particulars are:—

RURAL FINANCE AND SETTLEMENT COMMISSION.

The Commission administers several Acts, and appropriate particulars as to its financial authority and operations under each of these Acts are furnished below.

THE RURAL FINANCE ACT 1958.

Loans under Part III. of Act.—In accordance with the provisions of this Part, the Commission makes advances by way of loan, at the lowest possible rates of interest, to existing or proposed country industries, both primary and secondary. In these terms, loans made during the year amounted to \$4,236,256. At the close of the year, \$24,619,908 was held by borrowers of which \$20,353,703 was held in respect of primary industries and \$4,266,205 on account of secondary industries.

Rate of Interest on Loans from State.—From the commencement of operations up to and inclusive of the year 1963-64, the annual rate of interest charged by the State on its loans to the Commission was less than that payable by the State on loans raised on its behalf by the Commonwealth. Concessions granted on this basis varied from $1\frac{1}{2}$ per cent. in 1952 to $\frac{1}{2}$ per cent. in 1963-64. Since then no such concession has applied.

Advances under Part IV. of Act—Under this Part, the Commission is empowered to advance moneys to or for the benefit of any farmer for the purpose of carrying into effect a composition or scheme of arrangement between the farmer and his creditors. Any such advance is made from the Rural Rehabilitation Fund established pursuant to the provisions of Section 48 of the Act. No such advances were made during 1966–67.

Repayments of advances are credited to the Fund but any interest payable on an advance forms part of the Commission's income. Interest from this source included in the year's revenue totalled \$15,234.

The Rural Rehabilitation Fund is held in the Treasury and no interest is payable thereon to the Commission. The position of the Fund is summarized hereunder:—

[†] Includes mortgage interest \$19,404 received prior to 26th April, 1950.

Annual Statements of Accounts.—As required by the relevant legislation, the Commission has prepared a Profit and Loss Account for the financial year ended 30th June, 1967, and a Balance-sheet as at that date in respect of its operations under Parts III. and IV. of the Act. Comparative details for the past two years are summarized hereunder:—

Interest due and accrued, \$455,483, shown above, comprised interest due, \$197,244, and interest accrued, \$258,239.

Mention was made in previous Reports of a company indebted to the Commission and operating under the control of an Official Manager and Committee of Management pursuant to the provisions of the Companies Act. This arrangement continued in 1966-67 and, at 30th June, the amount due to the Commission was \$550,353. Should any part of this debt become uncollectable, the General Reserve mentioned earlier could be called on to meet the deficiency.

Government Agency Department.—Under Section 35 of the Rural Finance Act, the Treasurer is empowered to direct the Commission to take charge of the administration of any money provided from the Public Account for any special purpose. The Commission is required to establish an Agency Department to give effect to any such direction. During 1966-67, the Treasurer so directed the Commission in respect of certain loans which, with accrued interest, totalled \$59,396 and which had originally been advanced from the Decentralization Fund. Operations in this Department during the year were :-

SOLDIER SETTLEMENT ACT 1958.

Section 17 of the Soldier Settlement Act authorized the borrowing of \$130,000,000 for the purpose of a land settlement scheme for eligible ex-servicemen and for advances to discharged servicemen to assist them in the purchase of individually selected farms (single units).

In the period from the inception of the Soldier Settlement Scheme in the year 1945-46 to 30th June, 1967, a sum of \$131,017,264 has been allocated for soldier settlement. Of this sum, \$116,619,858 has been made available from State Loan Fund and \$14,397,406 by the Commonwealth in the nature of special assistance loans.

According to the books of the Commission, its loan liability on account of soldier settlement as at 30th June, 1967, was \$53,119,335.

With the exception of \$971,608 paid to the Commonwealth as part redemption of its special assistance loans, repayments by settlers and other credits of a capital nature have been credited to Loan Fund. During 1966-67, \$3,713,962 was so credited bringing the total repayments to 30th June, 1967, to \$58,152,858.

Principal assets of the Commission at 30th June were:—	\$	\$

Advances to effect improvements and for purchase of stock, &c.		86,870
Unpaid balances under Contracts of Sale		337,601

In addition to the assets listed above, there is another item of substantial size in the Commission's books. This item, \$4,286,310, is the amount which the Commission considers to be the sum due from the Commonwealth Government for the balance of its share of excess costs. The basis of the Commonwealth contribution towards excess costs incurred in writing down settlers' liabilities was determined in accordance with an arrangement made on 11th July, 1952. This arrangement was to apply to interim claims but there was an understanding that the Commonwealth would review the basis of its contribution on the submission of final claims. Although this review has been requested on several occasions in the past, the Commonwealth's acknowledgment of the balance shown above has not yet been signified.

In respect of Soldier Settlement, the Commission's Profit and Loss account for 1966-67 shows:—

Deficit for 1966-67		••	• •		••		1,298,170

The total accumulated deficit to 30th June, 1967, amounted to \$20,507,789. This deficit is almost wholly caused by remissions of rent and interest; the difference between the concessional rate of interest at 2 per cent. charged to settlers as fixed by the Act and the current rates payable on Government loans; the costs and expenses of raising the loans; and the cost of administration of the scheme. The aggregate concessions thus granted towards the settlement of discharged servicemen by this State to the 30th June, 1967, have been calculated by the Commission to be \$21,592,011.

In addition to land settlement, the Soldier Settlement Commission, by agreement with the Commonwealth Director of War Service Land Settlement, undertook the administration of re-establishment loans under the Commonwealth Re-establishment and Employment Act 1945. From 1st July, 1946, the administration of agricultural allowances under the same Act was taken over from the Repatriation Commission. Expenditure incurred in respect of these functions is being reimbursed from time to time by the Commonwealth.

LAND SETTLEMENT ACT 1959.

The Land Settlement Act 1959 provided for the application from Loan Fund of amounts not exceeding in the aggregate \$30,000,000 for a land settlement scheme which was to be open, in terms of the Act, to applications by all adult British subjects. From its inception in 1959–60 to the close of the year under review, a sum of \$23,709,677 has been allocated for the purposes of the scheme. According to its books, the Commission's loan liability on account of land settlement, as at 30th June, 1967, was \$20,224,043—a reduction of \$3,485,634, made up as hereunder:—

During the year Temporary Lease Rentals totalling \$562,653 were written back against the Profit and Loss Account. Since the commencement of the Act, these rents have been credited to the Profit and Loss Account instead of being offset against the interest charges of the estates. The adjustment was needed to meet the requirements of the relevant legislation.

The accumulated deficit to 30th June, 1967, before taking into account profits from livestock trading, amounted to \$1,921,677. This deficit is almost wholly caused by remissions of rent and interest, the difference between the concessional rate of interest at 4 per cent. charged to settlers as fixed by the Act and the current rates payable on Government loans, the costs and expenses of raising the loans and the cost of administration of the scheme.

For the year, trading in livestock showed a profit of \$118,150, thereby increasing the accumulated profit from this activity to \$432,965 at 30th June, 1967.

RURAL FINANCE AND SETTLEMENT INSURANCE FUND.

The Rural Finance and Settlement Insurance Fund was established pursuant to the provisions of Section 29 of the Rural Finance and Settlement Commission Act 1961, as amended.

The income and expenditure of the Fund for the year are shown below:—

The transfer of \$198,122 to the Rural Finance and Settlement Fund from the balance brought forward at 1st July, 1966, was made on the basis of my certificate issued pursuant to the provisions of sub-section (11) of Section 29 of the Rural Finance and Settlement Commission Act 1961. This was the sum which, after due consideration of the claims reasonably likely to be made against the Rural Finance and Settlement Insurance Fund was, in my opinion, the surplus in the Fund at the close of business on 30th June, 1966.

The balance of the Fund at the close of the year was represented by:-

THE STATE SUPERANNUATION BOARD.

By legislative direction, the State Superannuation Board is responsible for the administration of the Superannuation Fund, the Pensions Supplementation Fund and the Married Women Teachers' Pensions Fund.

SUPERANNUATION FUND.

This Fund, authorized under the provisions of the Superannuation Act 1958, provides, on a contributory basis, retiring benefits for the Public and Teaching Services, the officers and employees of the Railways and certain statutory bodies and, in terms of the Superannuation Act 1963, for certain members of the Police Force.

Amending legislation proclaimed to operate from 25th May, 1966, and incorporated in the Pensions Supplementation Act 1966—

- (i) introduces a second table of units of pension which enables an officer to contribute for a greater number of units in relation to salary, but at increased rates of contribution for units effected after the commencement of the Act, and places no limit on the number of units beyond which an officer may, according to salary, contribute for pension;
- (ii) authorizes contributors, subject to certain conditions, to defer payment of that part of their fortnightly contributions which is in excess of 8 per cent. of gross salary;
- (iii) in respect of the entitlement of contributors to elect to contribute for "lost" units (that is, previously available units not contributed for), restricts any such election to such a maximum number of additional units as will not cause total fortnightly contributions to exceed one-third of gross salary;
- (iv) enables contributors, including "limited" contributors, with "lost" units who are between the ages of 60 and 65 years to elect, under certain conditions, for "lost" units and retire on a full pension prior to attaining the age of 65 years;
- (v) extends, from six months to twelve months, the period during which "limited" contributors may obtain medical certificates entitling them to full benefits; and
- (vi) establishes a scheme, whereby contributors nearing retirement, together with certain pensioners, including widows, may elect to convert part of their pension entitlement to a lump sum cash entitlement.

Subject to final audit, the receipts and disbursements for the current year, compared with those for the two previous years, are summarized below:—

Receipts for the year exceeded disbursements by \$11,674,299. Net investments during the year amounted to \$11,815,036 and the cash balance at the close of the year was \$18,726.

Explanations of major variations indicated in the statement are given below:-

Contributions—Officers—Current.—The increase of \$4,642,291 under this head was a net figure. Actually gross contributions rose by \$4,798,599 and refunds of contributions by \$156,308. The gross increase can be attributed to increased salaries of certain contributors, thereby increasing their pension entitlement with consequent higher contributions, and the operation for the full financial year of the second table of units of pension introduced by the Pensions Supplementation Act 1966.

Contributions—Officers—Deferred.—This item consists of contributions received from officers who had elected, under provisions contained in the Pensions Supplementation Act 1966, to defer part of their normal fortnightly contribution.

Payments from Consolidated Revenue.—The rise of \$858,835 in these payments represented the increase in the Government recoup commensurate with the increase in the aggregate amount of pensions paid in the year.

Interest.—The principal cause of the increase of \$428,571 in interest received by the Fund in 1966-67 was the substantial net investment during the year of \$11,815,036.

Lump Sum Payments—Cash Options (Section 32 (a), (b) and (c)).—This disbursement represents payments made to pensioners and/or widows who had elected, pursuant to amending legislation incorporated in the Pensions Supplementation Act 1966, to convert part of their pension entitlement to lump sum cash payments.

Pensions Supplementation Fund—Statutory Transfers, Act 7417.—This disbursement represents the payment during 1966-67 to the Pensions Supplementation Fund, in terms of the Pensions Supplementation Act 1966 (referred to later).

PENSIONS SUPPLEMENTATION FUND.

This Fund was established pursuant to the *Pensions Supplementation Act* 1966 to meet the cost of supplementing as from 1st April, 1966, the pensions of officers who retired on or before 12th July, 1961, or the widows of such officers or of those officers who died prior to that date.

In terms of the Act, credits to the Fund consist of:-

- (i) transfers of moneys or assets equal in value to the amounts debited to the Fund in respect of the supplementation of pensions of certain pensioners and which are to be made from any surplus in the Superannuation Fund revealed at the preceding quinquennial actuarial investigation;
- (ii) payments representing the amount standing to the credit of the Police Superannuation Fund on each 30th day of June; and
- (iii) interest earned on investments made out of the Fund.

A summary of the transactions of the Fund on an accrual basis since its inception to 30th June, 1967, is given below:—

In addition to the liability shown above as "Pensions Approved but Unpaid", there is a contingent liability in respect of 642 pensioners whose eligibility for supplementation had not been determined as at 30th June, 1967. Such part of the contingent liability as relates to pensioners under the Superannuation Act 1958 is offset by a contingent asset consisting of equivalent transfers which would be receivable from the State Superannuation Fund if supplementary pensions were paid.

MARRIED WOMEN TEACHERS' PENSIONS FUND.

The purpose of this Fund, authorized under the provisions of the *Teaching Service Act* 1958, is to provide retiring benefits to married women who are in permanent employment in the teaching service and who, because of their married status, are not eligible to be contributors to the State Superannuation Fund. Benefits are provided by way of pension or, under certain circumstances, lump sum payments.

VICTORIAN INLAND MEAT AUTHORITY.

The audit of the accounts of the Authority for the year ended 30th June, 1967, has been completed.

Transactions for 1966-67 resulted in a loss of \$52,352 after providing \$14,500 for long service leave, compared with a profit of \$70,672 in 1965-66. A summarized statement of trading operations for the two years is as follows:—

The State has provided working capital for the Authority and, at 30th June, 1967, the total advanced for this purpose remained unchanged at \$224,999.

The Reserve Bank continued to provide temporary financial accommodation on the security of the current assets of the Authority and a Government guarantee. During the year, the limit of the guarantee by the Government was raised from \$100,000 to \$150,000.

At the close of the year, the Authority's loan liability to the State on account of fixed assets was \$2,553,319.

VICTORIAN PIPELINES COMMISSION.

The Victorian Pipelines Commission was constituted pursuant to the provisions of the Victorian Pipelines Commission Act 1966, which came into operation on 1st March, 1967.

Under the provisions of the Act, an annual audit of the accounts of the Commission is required. This has been completed to 30th June, 1967, which was the first balancing date of the undertaking.

Expenditure to 30th June was mainly of a preliminary nature and was capitalized. Finance was provided by way of bank overdraft.

The following is a statement of the Commission's balances as at 30th June, 1967:—

MARKETING BOARDS.

The Marketing of Primary Products Act 1958 provides the machinery under which Boards may be constituted for the marketing of those primary products which, by proclamation of the Governor in Council, have been declared commodities under and for the purposes of the Act.

The legislation specifically provides that a Board so constituted shall not be deemed to represent the Crown for any purpose whatsoever, and thus no liability can accrue to the State as a result of the transactions of any such Board.

Five Boards, namely the Chicory, Egg and Egg Pulp, Maize, Onion and Tobacco Leaf Marketing Boards are operating under the Act. By statutory direction the accounts of these Boards are subject to my audit, and comments on and summaries of the accounts follow:—

Chicory Marketing Board.

The accounts for the last complete pool period, that ended on 31st March, 1967, have been audited. The operation of this and the two previous pools and the financial position of the Board as at 31st March, 1967, are embodied in the following summary of the Board's affairs.

Egg and Egg Pulp Marketing Board.

This Board administers the marketing of eggs and egg products in Victoria. It operates grading floors in Melbourne and Ballarat in addition to a number of receiving and selling depots which are situated in both metropolitan and country areas. Grading and selling operations are also conducted on behalf of the Board by its authorized agents, producer agents and distributors. Pulp is manufactured by the Board in its own factories in Melbourne, Bendigo and Ballarat.

Pursuant to the provisions of the *Poultry Levy* (Collection Arrangement) Act 1965, the Board is responsible for the collection of a hen levy in Victoria on behalf of the Commonwealth. Grants made by the Commonwealth to the State for the assistance of the Poultry Industry, under the provisions of the Commonwealth's *Poultry Industry Assistance Act* 1965, amounted to \$690,315 in respect of the pool period under review.

The operations of the pools during the accounting periods for 1965-66 and 1966-67 were :--

As in the previous two pool periods, the results of the year's operations have been affected by the valuation of stocks of eggs and egg products. The asset "Egg and Egg Products" shown in the Balance-sheet at \$494,028 has been valued at current local market prices after providing for storage and other applicable charges and after deducting an additional 15 per cent. from the valuation of the stocks of egg products and winter storage eggs. The arbitrary reduction of 15 per cent. has the effect of understating the value of stocks on hand as at 1st July, 1967, by approximately \$79,000.

Tobacco Leaf Marketing Board.

During the year under review, the Supreme Court granted an injunction restraining the appointment of the persons who had been elected, on 13th April, 1966, as elective members of the Tobacco Leaf Marketing Board. By authority of Act No. 7382, a manager was appointed to carry on the functions of the Board until the appointment of the members of the Board.

A summary of the financial operations for the accounting period from 1st April, 1966, to 31st March, 1967, is set out hereunder. The figures are subject to audit.

ACKNOWLEDGMENT.

I appreciate the helpful co-operation that I have received during the year from the members and staff of the several Authorities referred to in this Report.

A. J. A. GARDNER Auditor-General.

Melbourne, 1st December, 1967.

The state of the s
